Disclaimer

These reimbursement policies serve as a guide to assist you in accurate claims submissions and to outline the basis for reimbursement if the service is covered by a member's benefit plan. The determination that a service, procedure, or item is covered under a member's benefit plan is not a determination that you will be reimbursed. Services must also meet authorization and medical necessity guidelines appropriate to the procedure and diagnosis, as well as to the member's state of residence.

Ensure that you use proper billing and submission guidelines, including industry-standard, compliant codes on all claim submissions. Services should be billed with Current Procedure Terminology® (CPT) codes, Healthcare Common Procedure Coding System (HCPCS) codes and/or revenue codes. These codes denote the services and/or procedures performed and when billed, must be fully supported in the medical record and/or office notes. Unless otherwise noted within the policy, our reimbursement policies apply to both participating and non-participating professional providers and facilities.

If appropriate coding/billing guidelines or current reimbursement policies are not followed, we may:

- Reject or deny the claim.
- Recover and/or recoup claim payment.
- Adjust the reimbursement to reflect the appropriate services and/or procedures performed.

These reimbursement policies may be superseded by mandates in provider, state, federal, or Centers for Medicare & Medicaid Services (CMS) contracts and/or requirements. We strive to minimize delays in policy implementation. If there is a delay, we reserve the right to recoup and/or recover claims payment to the effective date, in accordance with the policy. We reserve the right to review and revise these policies when necessary. When there is an update, we will publish the most current policy to the website.

Policy

Anthem Medicare Advantage allows reimbursement of induced abortions unless provider, state, federal, or CMS contracts and/or requirements indicate otherwise.

Induced abortions are allowed only when the written voluntary and informed consent has been obtained from the woman upon whom the abortion is to be performed, and the provider performing the procedure certifies the following:

- The pregnancy is the result of an act of rape or incest; or
- The woman suffers from a physical disorder, injury, or illness, including a life-endangering physical condition caused by or arising from the pregnancy itself that would, as certified by a physician, place the woman in danger of death unless an abortion is performed.

Reimbursement is based on the applicable fee schedule or contracted/negotiated rate. Anthem Medicare Advantage does not require informed consent forms to be submitted with claims.

Anthem Medicare Advantage requires modifier G7 be appended to the appropriate procedure code when requesting reimbursement for induced abortion procedures.

Informed consent is not needed for the treatment of incomplete, missed, or septic abortions. These procedures are not considered induced or elective abortions and are allowed under the criteria of medical necessity.
